

POWDER DISH

Dishwashing Powder

Description

POWDER DISH is a highly active machine washing detergent powder engineered for all automatic dishwashers, from domestic to commercial models. This readily soluble, fast acting formula dissolves instantly and performs brilliantly across all water types, delivering spotless, streak free results every cycle. Its oxygenated, non chlorinated composition powers through food residues and grease, while built in anti scaling agents protect machine components and prevent limescale buildup. Perfect for glassware, cutlery, plates and pots. POWDER DISH ensures hygienic cleanliness and sparkling shine without harsh chemicals. Streamline dishwashing in busy kitchens or homes with this reliable, high performance powder that cuts cleaning time and maintains appliance efficiency for long term savings.
